Beach

- 31 JARUN LAKE** VISITED BY GAYS
The official nudist beach at Jarun lake is also visited by many gays in summer. Near the beach is a cruising area; active day and night throughout the year. You can visit the island opposite the nudist beach—the forest, bushes and south beaches are a known cruising area. Prime gay spots are located in the south-eastern forest. The island's name is Otok hrvatske mladeži (The Island of Croatian Youth). You can reach the island by crossing the bridge at its eastern end. The "gay forest" is on your left as soon as you cross the bridge. Follow the path to the beach on the west side of the island.
